PROJECT DOCUMENTATION

CODECLAUSE INTERNSHIP

Project ID - #CC9891
Project Title - Image Gallery
Internship Domain - Web Development Intern
Project Level - Entry Level
Assigned By- CodeClause Internship
Assigned To- Faisal Ahmad Bhat

Start Date - 01 Feb 2024	End Date - 01 Mar 2024
--------------------------	------------------------

Project Details-

Aim -

Develop an image gallery with filter options.

Description-

Create a gallery showcasing images that users can filter based on categories or tags.

Technologies-

HTML, CSS, JavaScript
You can use other technologies that you know in web development.

What You Learn-

Filtering and sorting arrays, image handling.

Project ID - #CC9892
Project Title - Music Player
Internship Domain - Web Development Intern
Project Level - Intermediate Level
Assigned By- CodeClause Internship
Assigned To- Faisal Ahmad Bhat

Start Date - 01 Feb 2024	End Date - 01 Mar 2024
--------------------------	------------------------

Project Details-

Aim -

Build a basic web-based music player.

Description-

Create a simple music player that allows users to play, pause, and skip tracks. Include features like playlist creation and volume control.

Technologies-

Angular, React, Vue.js, Go, Dart, Java, HTML, CSS, JavaScript
You can use other technologies that you know in web development.

What You Learn-

Media playback handling, interactive user interfaces

Project ID - #CC9893
Project Title - Pet Selling System
Internship Domain - Web Development Intern
Project Level - Golden Level
Assigned By- CodeClause Internship
Assigned To- Faisal Ahmad Bhat

Start Date - 01 Feb 2024	End Date - 01 Mar 2024
--------------------------	------------------------

Project Details-

Aim -

Develop a comprehensive Pet Selling System where users can buy and sell pets securely.

Description-

Create a user-friendly platform allowing pet enthusiasts to explore and purchase pets. Users can log in securely using their email and password, view a list of available pets with details, and initiate the purchase by filling out an order form. The integration of Razorpay payment gateway ensures a seamless and secure transaction process. Additionally, users have the option to list their pets for sale.

Technologies-

Angular, React, Vue.js, Go, Dart, Java, HTML, CSS, JavaScript, PHP, MySQL
You can use other technologies that you know in web development.

What You Learn-

User Authentication, File Handling, Form Data and State Handling, Payment Gateway Integration.

Project ID - #CC9894
Project Title - File Sharing Platform
Internship Domain - Web Development Intern
Project Level - Golden Level
Assigned By- CodeClause Internship
Assigned To- Faisal Ahmad Bhat

Start Date - 01 Feb 2024	End Date - 01 Mar 2024
--------------------------	------------------------

Project Details-

Aim -

Develop a user-friendly file-sharing platform allowing users to upload files without the need for login credentials. Users can set passwords and expiry dates for added security.

Description-

Create a versatile file-sharing system where users can effortlessly upload files without the hassle of logging in. The platform should provide an option to set passwords for links, ensuring only authorized individuals can access the shared files. Additionally, users should be able to specify an expiry date and time for the shared link.

Technologies-

Angular, React, Vue.js, Go, Dart, Java, HTML, CSS, JavaScript, PHP, MySQL
You can use other technologies that you know in web development.

What You Learn-

File Handling, Sharing Mechanism, Access Security, Link Generation

Instructions-

1. There are no technology restrictions for project development. You are free to use any technology you are familiar with..
2. Ensure timely submission of projects before the deadlines.
3. There are no restrictions on completing entry-level and intermediate projects.
4. Avoid copying and pasting code. Be original in your submissions.
5. Upon completion, submit your all projects on app.internship.codeclause.com.

Eligibility Criteria:

1. Completion of one project makes you eligible for a certificate.
2. Completion of two projects (entry-level and intermediate) qualifies you for a certificate and Letter of Recommendation (LoR).
3. Completion of two projects (entry-level and intermediate) with one golden project makes you eligible for swags verification.
4. It only eligibles to you for swags verification it doesn't means that you are eligible for swags.
5. There are two golden projects you need to do any of them.
6. There is not technology restrictions for projects.
7. If project found copied then you are eligible for swgas.
8. If golden project needs to be dynamic and proper working.
9. Console based projects are not eligible for swags. Proper Ui is required to eligible for swags.
10. Needs to post video of demo of golden project on LinkedIn and it should includes only the output of project no need to share the code.
